PRESS RELEASE

Subscription Plan Pricing Changes – Effective July 1, 2022

iDocket.com, LLC is announcing an update in their subscription plan pricing. This change is applicable to users currently accessing more than 12 counties in their subscription plan; any users accessing fewer than 12 counties are not affected by this change.

Currently, users can purchase subscriptions to view a specific number of counties, up to 12 counties; high-volume users can purchase a subscription to view an unlimited number of counties, provided it is greater than 12 counties. The update will allow users to purchase subscriptions to view a specific number of counties, up to 20 counties; high-volume users can purchase a subscription to view an unlimited number of counties, provided it is greater than 20 counties.

Users who currently access more than 12 counties are encouraged to take advantage of a promotion that allows the user to extend their subscription at the current pricing for up to two years. Annual and biennial plans are offered at current pricing if paid before July 1, 2022. This allows iDocket's current high-volume users to mitigate the price increases to their subscriptions for a period of time.

These enhancements to iDocket's revenue stream follow one of their business philosophies, in that those benefiting the most from iDocket services are expensed accordingly. The updated pricing structure is provided below.
