• iDocket Premier County-Wide Software

iDocket is excited to see everyone in San Marcos and roundtable during Monday's Breakout session from 1:30 to 3:30. We appreciate this given opportunity and welcome customers and potential customers to attend. If you have any questions/topics you want iDocket to cover please email them to sales@idocket.com.

iDocket has installed many County-Wide offices in 2019, which has positioned iDocket to competitively compete in the Texas marketplace. Our premier integrated software suite provides the ability to integrate from the book in process at the jail, all the way through the case filing, and ultimately court disposition. As a software development company we are able to meet our customers request. Newly developed products include a complete evidence management application for law enforcement and prosecutors, improved AG reporting, and much more.

We continue to grow iDocket's team of experienced programmers to make sure customer support is the best in the market.

If you are interested in what iDocket offers please come by our booth to speak with Amelia, Marilyn, and Richard.

Come by and see us,

Amelia Balderrama

Judicial Records Online using Ruby

Our fundamental belief is that the court Clerk is the elected custodian of the record. We respect the wish of each Clerk in deciding what data they want to make available on the Internet.

We charge the Clerks' copy fee. Whatever the Clerk asks us to charge, we can accommodate. Most have chosen \$1/page with no limit on document size.

Our database contains all public cases the Clerk has in their CMS. If the Clerk adds old cases to their CMS, we pick them up as well.

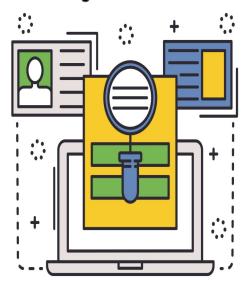

We have Criminal, Civil, and Probate cases. Family Law is categorized as a Civil case.

Court settings are displayed with case information.

Attorneys get their (daily) court calendar of cases on the docket for the next five business days.

Users get (daily) notifications on any updates of cases they track.

Searching for Records Online

Benefits include:

- Less customer traffic and fewer phone calls lead to a more efficient and time-saving Clerk's office.
- Increases security and peace of mind by providing constituents better service and confidentiality.
- Generous revenue sharing places money back into the county We are marching towards exceeding \$200k paid to Texas Clerks this year. Get your fair share! We charge and collect your copy fees and they are paid monthly without any extra effort from you.

iDocket eFile

Need to eFile your case? Choose iDocket and eFile without any EFSP fees.

iDocket eFiling for Courts is the official electronic filing solution for the State of Texas. With iDocket eFiling for Courts, filers can submit documents online to participating courts and Clerks can receive and process the documents and associated fees.

Products

iDocket products:

Onyx Cashiering & Total Records Management

Quartz Case Management

Ruby Public Access to Judicial information

For a private product demonstrations please contact one of our staff members to set up a demo.

iDocket's and STW's Partnership

The newest change with iDocket is our partnership with STW. We have achieved our goal of providing a "county-wide" solution serving ALL county departments – all from one source and one integrated support system. Our strategic partnership with STW Inc., a privately held TX corporation, allows us to provide government focused financial management solutions. Since 1992 STW Inc. offers an innovative approach with flexible and secure solutions.

Counties have a choice for complete county wide software solutions with iDocket and STW. iDocket provides judicial applications and STW provides financial management applications. iDocket.com is a S-Corporation founded in March of 2000 which evolved from Solutions, Inc., a software development company created in 1991 by Armando Balderrama after 15 years with IBM. iDocket is incorporated within the State of Texas with headquarters in Amarillo, having offices strategically located in El Paso, San Antonio, and Rio Grande City, Texas.

Our foundation service of hosting a website for judicial information and redacted documents, which we offer free to Counties, brings in most of the company's revenue. Our subscription revenue allows us to develop cutting edge and affordable software including our Case Management Systems (**Quartz**) that we offer to Clerks across Texas. Our first installation, in Starr County, is still running today. Over the years we have developed integrated County-Wide Systems including software for County & District Clerks across Texas. We have also developed cutting edge and affordable integrated software to include: Blue Diamond Sheriff's software (CAD, RMS, JMS,), Quartz Judges Bench, Quartz CA/DC, Quartz CC/DC, Amethyst Jury, Quartz JP, Ruby judicial records online, Emerald land records online, and Onyx OPR.

iDocket.com has been providing software for over 18 years to county government.. To stay compliant and ahead of the curve, iDocket's sales specialist attends all JCIT Supreme Court meetings. We have dedicated employees for research and development depending on their area of expertise. Today iDocket.com has 83 customers using iDocket's premier application software. We believe software support is paramount to any successful relationship with counties. We have dedicated employees for support. Both iDocket and STW's software licenses include unlimited users with no additional surprise charges for enhancement upgrades. All clients are on the most current software version and never have to have costly conversion charges to a new version.

County Officials now have a choice when looking for County-Wide software. iDocket & STW can beat support, technology, and pricing of any vendor in Texas. Please contact sales@idocket.com if you are interested in hearing more.

iDocket's Premier County-Wide Software

- · Retain existing case management software, with no extra effort required.
- You and your staff will experience fewer telephone calls and fewer counter requests Saving Budget Dollars
- The courts will not have to pay for providing information on the Internet, saving money on software and maintenance fees.
- Prevent Internet hackers from ever accessing your County's system. Court case information resides on the iDocket.com server, not your system.
- No charge to the County, and the County shares in subscription revenue.
- · Ability to put images online with redaction software. Copy fees are paid monthly.
- By streamlining the process for handling court case information, become a benchmark for other courts and states.

iDocket eFiling Portal

TexFile eFiling for Courts is the official electronic filing solution for the State of Texas. With TexFile eFiling for Courts, filers can submit documents online to participating courts and Clerks can receive and process the documents and associated fees.

iDocket's Premier County-Wide Software

iDocket's Quartz Case Management System was built using the latest technology. In return, the system is easier to use and able to maintain seamlessly with state mandates. Also, users have the ability to be part of a County-Wide System allowing data to flow throughout the County.

Features Included:

Court Case Operations: Adding/editing/updating case Disposing case, Import eFilings directly into the system with a simple click of the mouse

Case Detail Operation: Adding hearings, events, bonds, fees/fines to the case. Editing/updating/removing hearings, events, bonds, fees/fines

Party Operations: Searching party by name and auto-populate their data on the screen **Court Settings**: Print Notice with ability to edit the notice before printing.

Search Operations: Perform searches on Name or Cause Number

Reporting Requirements: Built in Aged Accounts Report to better manage collections OCA Reports including Court Appointed Attorney

Integrated Imaging Application: Scan document images with automatic indexing and retrieval

Maintenance: Software maintenance and upkeep is included

ONYX software product has several components.

Features Included:

The OPR module is multi-faceted and can be used for indexing, scanning and, if desired, the cashiering of Official Public Records (OPR's). ONYX is an excellent vehicle for the scanning of OPR's and creating an index database.

The Cashier module has the ability to cashier all products in the clerk's office. It also functions as an optional first step in the document recording process of cashiering, indexing, scanning, search and retrieval.

The Vital Statistics modules are state compliant systems used to manage both formal and informal marriages, applications and all associated forms as well as birth and death records.

Jury Program

The Jury Management System will allow your office to utilize a complete jury package including jury panel management.

Quartz Jury software will help entering, maintenance, tracking and management of County's information. The software will provide a user interface for entering and editing data and generating reports and provide for the overall management of County's information and Jury information.
